• In S.S.C secured 79% in the 10th board exam conducted under the Gujarat board. Rajkot, India
• In H.S.C secured 66% in the 12th board exam conducted under the Gujarat board.

Projects

Aadhaar Enabled Payment System(AePS) – Aadhaar Pay(NPCI)

- Aadhaar Enabled Payment System (AEPS) is a payment service that allows a bank customer to use Aadhaar as his/her identity to access his/her Aadhaar-enabled bank account and perform basic banking transactions like balance inquiry, cash withdrawal, remittances through a Business Correspondent. I create an API for this and integrate it using python.

Flight booking

- In this project, I create API for flight search, flight booking, Min fare for flight, flight cancellations, flight hold, seat booking, meal booking etc.

BBPS service

- In this area, I create API for fastag recharge, mobile recharge, fastag recharge, prepaid and postpaid, water bill, Datacard recharge, light bill recharge, etc

Odoo Project:

Shopify connector, woocommerce connector, Stock intern warehouse transfer, 3PL connector, Quality control inspection, MRP Quality control inspection, RMA Portal, Sales RMA Portal, Timesheet Timer, Project Multi Assign, Sale section addition. And many more.

Student loan

I create this project using HTML, CSS, js, and bootstrap as a collage project.in this project student can get loan for education.
